Your Fence Banner

Design template

Fence Banner Spec.
2,400 By 800mm
Tough Vinyl Fabric
Double Hemmed
Metal Eyelets

b2bjv.com

To design your custom Fence Banner, all you need to do, is draw it.

Use the panels below to sketch in your ideas, anything you want, by hand is OK.

Include the words you want to use & the colours (just write these in - red, blue etc.). As well as the basic layout for your banner.

Also include anything else you want to have on your banner. Pictures, graphics, your logo, anything at all really.

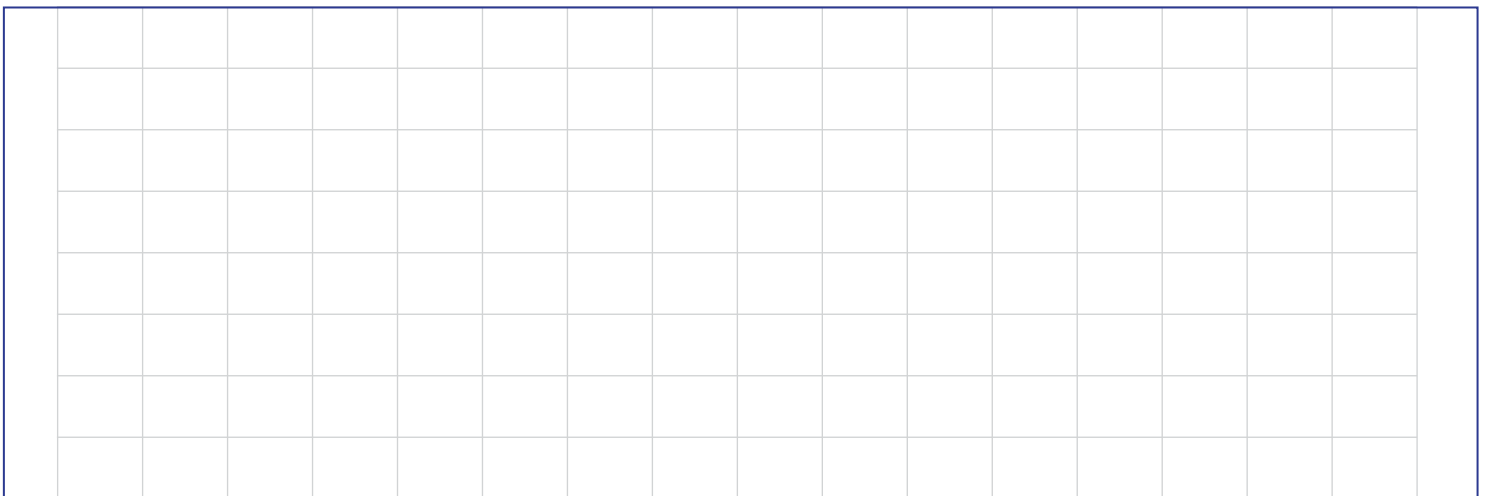

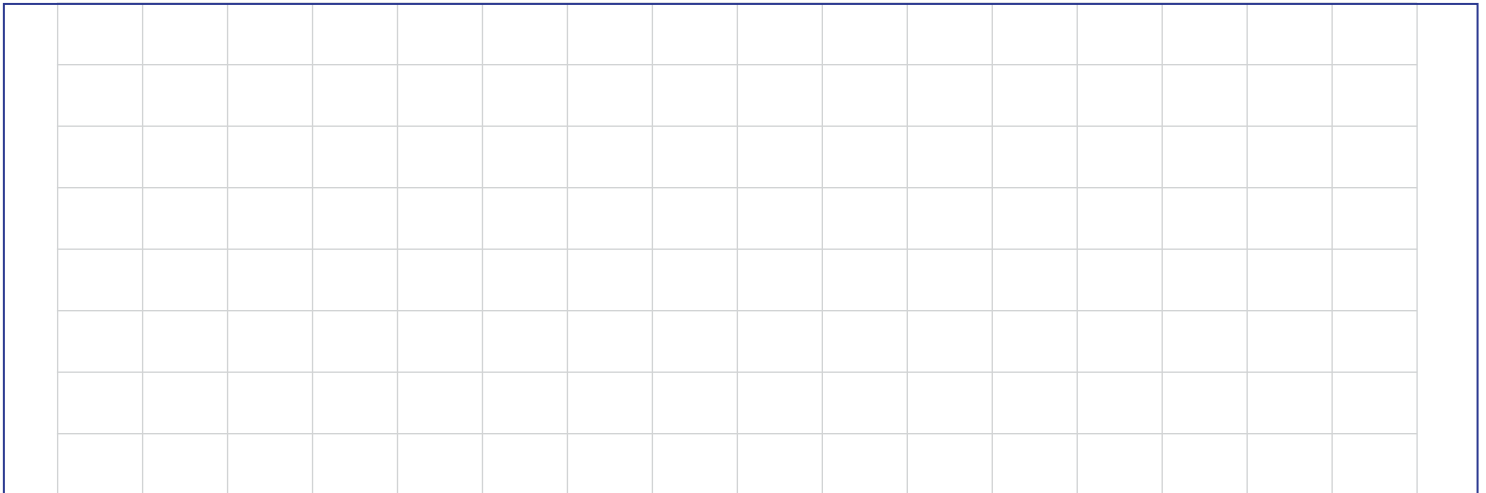

As I mentioned above, you can do this by hand if

you prefer, or open this file with your favourite drawing programme for editing. Just email me the results when your done :) plus any other images.

I will re-work and formalise your design into your initial banner proof and email this back to you for your comment & review.

From there, you can decide what, if any thing, you want changed. You have 2 more rounds of updates to make certain your design is perfect.

Email your Masterpiece to me Steve Scott - steve@b2bjv.com
