A. The Soloist - 1,500mm Wide - 1,200 Deep

The Soloist Gig Backdrop is the entry point for promoting your show. Made using the same materials and hardware as its larger cousins. The Soloist will make sure your audience know who you are.

1. Use these Gig Backdrop Templates to help design your Custom Backdrop.
 - ★ Print your template to Design your Backdrop by hand - *Too Easy*
 - ★ Or Open it with your favourite drawing software to edit directly - *Clever You*
2. Email me your design (*Phone Pic's OK*), I'll get to work on your Proof - *It's Free*

B. The Club n' Pub - 2,000mm Wide - 1,500 Deep

The Club n' Pub Gig Backdrop is the perfect size for the more intimate venues you play. Big enough for your audience to see and read, you can include your web or a facebook page link.

C. Laneway II (**NEW**) - 3,000mm Wide - 2,000 Deep

The New "Laneway II" is by far my most popular size for bands appearing on-stage at Pub's or at outdoor events where their audience can number up to 1,000 (or more) strong.

If your band is on its way or will be, Laneway II is your backdrop.

D. The Music Fest - 4,000mm Wide - 2,000 Deep

This bad boy is one of the most popular standard sizes I have.

Big enough for use outside, like all my Gig Backdrops "The Music Fest" is not too worried by conditions outdoors.

It's washable so water tolerant, with rust resistant metal eyelets.

So if conditions get a little damp, your Gig Banner will wash up as good as new.

E. The Headliner - 5,000mm Wide - 3,000 Deep

At 5 metres wide and 3 metres tall, the Headliner Gig Backdrop is HUGE.

Designed with larger venues and outside performances in mind, the Headliner comes complete with your choice of full length pole loops (top and bottom) or nickel plated rust resistant display eyelets - as many as you need.

If it's time for your act to dominate the stage. The Headliner is for you.
